Harmony for Humanity Concerts

Using the universal language of music to
diminish hatred
respect differences
and reach out in friendship

We are joining thousands of musicians in hundreds of concerts and dozens of countries, ringing the world in a musical affirmation of the oneness of mankind.

After journalist and musician Daniel Pearl was kidnapped and murdered by terrorists in Pakistan, his family and friends came together to work towards a more humane world. A classically-trained violinist, fiddler and mandolin player, Daniel Pearl joined musical groups across the globe. He recognized the power of music to bridge differences and he used it to make friends and inspire understanding. Music Day is centered around his October 10th birthday and carries on his mission of connecting diverse groups through words and music.

In 2006, over 200 performances in 29 countries participated in the Fifth Annual Daniel Pearl Music Day. This year Harmony for Humanity will spread farther and ring louder.
